Sustainable Energy & Biobased Product Symposium

@ Starlight Terrace, Oklahoma State University, Stillwater, OK

The Biobased Products and Energy Center is hosting a symposium on sustainable energy and biobased products. This one-day event is for faculty, professionals, and students interested in research, Extension, and education efforts that contribute to bioeconomy development and sustainability.

The symposium will host a **keynote speaker**, **poster presentations**, and support **networking opportunities**.

Registration is **FREE**. *More information is coming soon for registration and abstract submission for poster presentations.*

Join us to foster new opportunities for interdisciplinary collaborations and partnerships.
