

# Dairy BREEDS

## Holstein

White with black spots or white with red spots.

Largest dairy breed weighing in at about 1,500 pounds.

Most common dairy breed in the U.S.

Produces the most milk of all breeds. Up to 10 gallons per day.

## Jersey

Medium to dark brown with a dark nose and tail.

Small in size. Weighing only about 900 pounds.

Second most common dairy breed in the U.S.

Excellent milk production, even for their small size.
