

GREENHOUSE LEARNING CENTER INVESTMENT OPPORTUNITIES

The creation of the Greenhouse Learning Center is part of a larger, division-wide plan to update and replace facilities. Private funding for the new Greenhouse Learning Center will be critical as DASNR leads OSU's effort to become a 21st Century land-grant university. Each of the following investment options will include appropriate naming recognition for the useful life of the facility. Giving options may be tailored to fit the needs and passions of individual donors. Construction of the Greenhouse Learning Center is expected to last through Summer of 2019. Classes and utilization of the Center will begin in Fall of 2019.
